

Provide Feedback on Regulations Related to Transportation Network Companies

The Government of Alberta is requesting municipal input on [Bill 16, *The Traffic Safety Amendment Act*](#). The primary purpose of Bill 16 is to establish regulations related to Transportation Network Companies (TNCs). TNCs are more commonly referred to as ride-sharing services.

The proposed regulations will:

- Define “transportation network company” and related terms
- Establish the requirements all TNCs operating in Alberta must meet
- Detail how these requirements will be verified and the role of investigations

Input can be provided by sending written submissions to trans.officeoftrafficsafety@gov.ab.ca. Unfortunately, the timeline for submissions as short, as feedback will only be accepted until **May 24**. For an overview of Bill 16 and questions to consider when submitting feedback, see the attached issues paper provided by Alberta Transportation.
