

Host an EOEP Course in Your Municipality!

The **Elected Officials Education Program** supports the skills development of Alberta's municipal elected officials. The EOEP is now working with municipalities to host courses locally. Host a course for your own council, or team up with your neighbours to host a regional course. The EOEP will work with you to set up any course on a date that works for you.

Benefits of hosting include:

- Choosing your course
- Reducing or eliminating travel costs
- Opportunity to invite neighbours to discuss examples relevant to your council or region

For more information on hosting an EOEP course, contact the **EOEP Registrar** at **780.989.7431** or **registrar@eoep.ca**, and check out our course hosting guide at **eoep.ca**.
