Look what just blew in! A Mobile Weather Data System - now online!

The RMA has helped to create a mobile weather data system that provides weather data for hundreds of weather stations throughout Alberta.

Alberta Agriculture and Forestry, with support from the RMA, has released [a mobile weather data system](#) that allows users to view localized weather conditions from weather stations throughout Alberta. The site is a mobile version of the information available through the [Alberta Climate Information System](#) (ACIS).

Available data includes:

- Temperature
- Humidity
- Windspeed
- Precipitation
- Forecasts
- Weather Radar
- Fire Weather Index
- Weather Alerts
- Pest Alerts and Information

To access the mobile site, click [here](#).
