

## Looking for Information on Cannabis? Start here! Have anything to share? Let us know!

The AAMDC understands that municipalities are facing uncertainty about the municipal impacts of the legalization of cannabis and may be looking for information on how to amend land-use bylaws to accommodate production and retail facilities, among much more.

To assist members in planning for legalization, the AAMDC has created a [Planning for Cannabis](#) information page on our website to share available resources. While there are only a few resources now, we will be adding to this page as more information and resources become available.

At this time, you will find:

- Amending Your Land Use Bylaw to Prepare for the Retail Sale of Cannabis document, prepared by Brownlee LLP
- Cannabis facility classifications by municipality
- AAMDC submissions to the Cannabis Secretariat and Health Canada
- AAMDC Letters to Alberta Ministers re: Cannabis Excise Tax

If you have any resources you think would be useful for rural Alberta municipalities, such as:

- amended land use bylaws;
- resources on amending land use bylaws;
- if you want to share your experiences; and/or
- anything else related to cannabis legalization for municipalities.
