

Need a Climate Resilience Action Plan? Apply by August 11

How is the climate in your region going to change in the future? How will changes affect your community's economy, infrastructure, and quality of life? How can your community prepare for these changes?

Municipalities interested in exploring these important questions are invited to apply to participate in **Climate Resilience Express**. Climate Resilience Express can help you plan for and manage the local impacts of climate change (e.g. flooding, drought, wildfires) on your community's infrastructure, services, and citizens.

For more information on the details and application process for Climate Resilience Express, please [click here](#). Successful applicants will receive a one-day workshop customized for their region and a climate resilience action plan for their community.

Climate Resilience Express is offered jointly by the **Municipal Climate Change Action Centre** and **All One Sky Foundation**.

Questions about all MCCAC programs can be directed to contact@mccac.ca.
