Asset Management Workshop Materials Available Online

The RMA, AUMA and IAMA have wrapped up the asset management workshops held in Spring/Summer and workbooks from the sessions are now available online.

The asset management workshops that were held across Alberta over four months this Spring/Summer reached 130 municipalities – a huge success! We hope that your municipality had the opportunity to attend at least one of the workshops, but we understand that the Spring and Summer are busy times for all and capacity varies between municipalities. The workbooks from all workshops are now available online for your benefit, click [here](#) to access.

Workbooks available:

- Asset Management for Elected Officials
 - The Strategic Basics
 - Asset Management and Climate Change
 - Engaging the Public in Asset Management
 - Communicating Levels of Service
 - Asset management and Risk
- Asset Management for Municipal Staff
 - The Technical Basics
