## Energy Efficiency and Green House Gas (GHG) Reduction Courses and Workshops

*Courses are offered between the fall of 2018 and the spring of 2019.*

Due to the high level of interest in Energy and GHG training in the province, and with the support of Energy Efficiency Alberta (EEA), the Canadian Institute for Energy Training (CIET) will be running a series of **courses and workshops** in Alberta over the coming months. This is an excellent opportunity for municipal staff and leaders to take advantage of subsidized training to increase their knowledge in these areas for the benefit of their operations. Below is a list of course and workshop names being offered:

- One-Day Best Practices of Industrial Conservation Initiative (ICI) Energy Management
- Accelerated Energy Management
- Advanced Building Energy Modelling (CAN-QUEST)
- Advanced Course on Building Recommissioning (RCx)
- Building Operator Certification Training (BOC)
- Certified Energy Auditor (CEA)
- Certified Energy Manager (CEM)
- Certified Measurement and Verification Professional (CMVP)
- Certified RETScreen Expert (CRE)
- Energy and GHG Monitoring, Targeting and Reporting (MT&R)
- Energy Efficiency (EE) Financing: Understanding the mechanisms & resources to fund EE projects
- How to Sell Energy Efficiency Internally and Externally
- Implications of the Alberta Carbon Levy for your Organization
- Introduction to Building Energy Modelling (CAN-QUEST)
- Prep Course for the NRCan ERS v15 Energy Advisor Exam
- Prep Course for the NRCan Foundation Level Exam

For a full list of courses and dates please visit the [CIET 2018/2019 Alberta course calendar](#).
