RMA and AUMA Seeking Examples to Support ICF Negotiations

Some municipalities are seeking models, ideas, and inspiration to assist in developing their intermunicipal collaboration frameworks (ICFs). RMA is seeking terms of reference documents, service/funding agreements or even complete ICFs that may be helpful for other municipalities. Send your examples to wyatt@RMAAlberta.com. The examples will be shared with RMA and AUMA members.

RMA and AUMA have also developed an [ICF Workbook and templates](#) to provide guidance on completing an ICF. Still it is helpful for municipalities to see how others have approached what can be challenging negotiations, while recognizing that each collaboration will be unique.
