## Government of Alberta Planning Tool Supports Engagement with Indigenous Communities

*Provincial mapping tool supports engagement with Indigenous Communities*

The Government of Alberta offers an online mapping tool that supports industry and municipalities by identifying areas where Indigenous communities may be affected by land and resource development decisions. [The Landscape Analysis Indigenous Relations Tool](#) (LAIRT) is located within the [Landscape Analysis Tool](#) (LAT) and is an interactive, multidimensional mapping instrument that identifies base/sensitive landscape features where municipalities are commonly required to consult with First Nations and Métis Settlements under the province's [First Nations and Métis Settlements consultation procedures](#).

For more information about the LAT and LAIRT tools:

- [LAIRT User Guide](#)
- [LAT User Guide](#)
- Contact the LAT Help Desk at 1-877-944-0313 (toll free)
