## Alberta Safe Beach Protocol Now Available

*Updated revision on water quality indicators and standards for beach water quality*

**Alberta Health** has worked with internal and external partners to revise the water quality indicators and standards for beach water quality. The **Safe Beach Protocol** provides Albertans with a clear understanding of the management of recreational waters in Alberta.

The Safe Beach Protocol provides information on:

- Role of owners and operators in overseeing the sites
- Beach water quality indicators
- Water quality targets
- Site assessment tools
- Recreational water safety plan template

If you have any questions about the Safe Beach Protocol, contact Alberta Health [here](#).
