Miistakis Institute Releases New Flood and Drought Mitigation Toolkit

The [Miistakis Institute](#) has created a new toolkit called [Working With Nature](#) (WWN) that can help municipalities catalogue their natural infrastructure and develop a prioritized plan for better using it to mitigate flood and drought risk. WWN provides materials and directions for municipalities to self-navigate through workshops, worksheets, and a living workbook.

The Miistakis Institute is hosting a webinar on the WWN toolkit on **Thursday, December 5 at 12:00 pm**.

Register [here](#) for the webinar.

Please email Guy Greenaway at guy@rockies.ca if you have any questions about the WWN toolkit.
