RMA Fuel & Lubricants Program Can Take Your Fleet Farther

RMA Fuel takes the administrative stress and helps you run your fleet more economically

Through its large membership of municipal, public sector, and not-for-profit organizations across Canada, RMA Fuel has secured preferential service and pricing on fuel and lubricants for its members, all while maintaining *Canadian Free Trade Agreement* compliance.

RMA Fuel starts by going to tender on behalf of the entire membership. Then, members are able to request a free fuel analysis based on current fuel usage. This report will compare how much you are currently spending against how much you could save by going through the RMA Fuel program instead. Members are then free to join, gaining access to all the benefits and savings.

RMA Fuel Advantages:

- No contracts - any member can join the program at any time.
- Fuel is delivered to you directly or accessed via a fuel card from an approved cardlock or fleet supplier of your choosing. Lubricants are delivered in bulk or purchased from one of the suppliers, just like the fuel.
- RMA Fuel manages invoicing, so that when you receive an invoice for a fuel purchase, you pay RMA Fuel directly, and we pay the supplier on your behalf.
- We work with suppliers across Canada, including Esso, PetroCanada, Fas Gas, UFA, Imperial, Suncor Energy Partnerships, and NAPA Auto Parts.

To get started, call toll free 1.800.807.3750 or visit our website at RMAfuel.com to find out more.
