RMA Trade and Brandt Tractor Expand Program Offering

RMA Trade and Brandt Tractor are excited to announce the expansion of service as they bring John Deere and Ditch Witch construction equipment into the **Capital Purchasing Program**, available to all RMA members.

Brandt Tractor is the largest privately held John Deere Construction and Forestry dealership in the world. They are an important partner of the RMA, offering our members some of the best parts, service, and equipment for more than 20 years.

Headquartered in Regina, Saskatchewan, Brandt has been providing great value to customers and helping them succeed for over 85 years. Their strong, entrepreneurial spirit helped propel them forward into a growing and dynamic group of companies that employ more than 3,400 people across North America while working with clients in over 20 countries.

The RMA Capital Purchasing Program allows members to leverage Sourcewell's group buying program for the purchase of equipment, products, and services. The program provides transparent and consistent pricing, less administrative hassle, and full compliance with the Canadian Free Trade Agreement (CFTA).
