Helicopter Ambulance Input

RMA is seeking member input for a submission to AHS regarding helicopter ambulance service

Alberta Health Services (AHS) is conducting a **Helicopter Emergency Medical Service (HEMS) review**. The HEMS review began in November 2019 and the final report is expected to be delivered in September 2020. This review is focused on helicopter ambulances and does not include fixed wing air ambulances or search and rescue. The scope of the review includes:

- Standards (for both medical service and aviation)
- Funding models
- Governance

RMA is developing a formal submission to AHS on the HEMS review and is seeking member input. Please review the **HEMS review website** and email your comments to warren@RMAAlberta.com by **July 31, 2020**.

Additionally, AHS is conducting a **survey** for the HEMS review, which RMA encourages members to complete.
