## Registration for Transforming Alberta's Environmental Regulatory System Webinar is Now Open

*RMA is hosting a webinar with Alberta Environment and Parks to discuss the modernization of the environmental regulatory system*

RMA is hosting a presentation and Q&A session with senior representatives from [Alberta Environment and Parks](#) (AEP). The session will cover how the ministry is working to fulfill the vision of a balanced and results-based approach to environmental stewardship for air, land, water, and biodiversity while enabling sustainable development of natural resources.

AEP has been modernizing its regulatory system to reduce red tape, create efficiencies, and enhance transparency while still maintaining high environmental standards. This has been a significant effort involving stakeholders, multiple initiatives, and timelines. At the session, rural municipalities will learn more about each of the initiatives AEP is committed to, and how the ministry is prioritizing the work and setting out measures for success.

The presentation will be held over Zoom on **March 29, 2021 from 10:30 am to 12:00 pm**. Please note the lobby will open at 10:00 am for RMA and AEP to prepare for the presentation.

[Pre-registration](#) is required to attend this presentation. Please register by March 29 at 9:30 am.
