Video Tutorials Now Available on ClearRisk

For many years, RMA Insurance members have been requesting direction on how to create a sound municipal policy. To provide guidance to members, video tutorials have been created.

Presented by Doug Wyseman, these tutorials are now accessible in the ClearRisk Risk Management Library. The tutorials will help you understand the purpose of creating a municipal policy and the importance of topics such as roads, sidewalks, parks and recreation, and facilities. Also included are examples and sample policies for future reference.

To access your ClearRisk Risk Management Library, please follow the steps below:

- Login to ClearRisk
- Go to libraries at the top right
- Choose RMA Insurance library
- Choose the Creating a Municipal Policy folder
- Choose a tutorial of interest
- Click on the link, then press play

Please feel free to contact our office if you have any questions or need assistance.
