## Attend an Information Session on Aggregate Pit Approval Processes

*The session will provide an overview of a new guideline document jointly developed by Alberta Environment and Parks, RMA, and the Alberta Sand and Gravel Association*

Alberta Environment and Parks (AEP), RMA, and the Alberta Sand and Gravel Association have jointly developed a resource intended to provide clarity on timing and communication between municipal and provincial approval processes related to aggregate pits on public and private land.

The document sets out the roles, responsibilities and accountabilities of both AEP and municipalities within the regulatory process and is intended to ensure review and approval is as efficient as possible for all parties.

AEP will be offering an information session on the new resource on **Thursday, September 9, 2021, from 10:00 to 11:00 am**. There is no need to register for the session in advance - simply [join the Zoom meeting](#).
