About the RMA

Alberta's rural municipalities are diverse and forward-thinking. The RMA is proud to provide advocacy and business services that support Alberta's rural municipalities. The RMA represents all of Alberta's rural municipalities, and strives to serve as a resourceful, responsive and resilient advocate for rural perspectives and priorities on key policy issues at the provincial and federal level. Rural Alberta is an economic driver comprised of strong and vibrant communities that deserve a unified voice. The RMA is proud to serve in that role.

What is unique about rural Alberta?

- ◆ Rural municipalities are characterized by low populations and large geographic areas. Alberta is the only province where the entire land mass (with the exception of national and provincial parks) is municipally managed. RMA members are responsible for municipal service provision to 86.5% of Alberta's total land mass, with the remainder comprised of urban municipalities and national/provincial parks.
- ◆ Rural Alberta is vital to the province's and nation's economy. Rural Alberta's GDP is \$89.6 billion, which is 26% of Alberta's total GDP.
- ◆ Rural municipalities are home to 18% of the approximately four million people that live in Alberta. However, rural municipalities manage the majority of province's transportation infrastructure. Overall, Alberta is home to 23% of Canada's roads, and rural municipalities are responsible for approximately 75% of Alberta's roads and 60% of Alberta's bridges.
- ◆ Alberta's rural municipalities collaborate with their urban neighbours on regionally-beneficial infrastructure and services.
- ◆ Alberta is the only province in which municipalities have jurisdiction over lands that extend to all four borders of the province.
