## Watch for Four Part Broadband Series

*Stay tuned for four articles prepared by the RMA to share information on broadband with members*

The RMA is excited to launch a series of four articles designed to help members understand broadband and rural internet issues. Over the next four weeks, four articles will be shared in Contact:

- ◆ Technology – this article will provide a brief overview of the different technologies available for rural broadband.
- ◆ Funding – this article will provide details on the various current and historic funding opportunities for broadband projects.
- ◆ Spectrum – this article will explore spectrum, including RMA’s advocacy work and current issues facing spectrum management.
- ◆ Municipal Role – this article will provide information on how municipalities can become involved in broadband development.
