Asset Management for Elected Officials Workshop Postponed

The upcoming elected official workshops in Calgary, Edmonton, Lethbridge, Grande Prairie, and Vermilion will be rescheduled in the coming months

The [workshops](#), offered jointly by the RMA, Alberta Municipalities, and Infrastructure Asset Management Alberta through funding from the [Municipal Asset Management Program](#), have been postponed to allow councils adequate time to register. Stay tuned to Contact for revised dates, locations, and registration instructions in the coming months.

Participation in these one-day workshops is free. The workshops provide a great introduction to asset management and its importance to supporting councillors in their role as decision-makers and strategic planners.

All other asset management activities are still open for registration.

- ◆ [Introductory Cohort](#)
 - ◇ This cohort seeks municipalities with little to no asset management and who will learn how to develop asset management processes and policies.
- ◆ [Intermediate Cohort](#)
 - ◇ This cohort seeks municipalities with some asset management uptake and will help further develop and improve current asset management plans.
- ◆ [Group Learning Communities](#)
 - ◇ These workshops will focus on developing partnerships between municipalities to share information and seek solutions to asset management challenges (registration opening soon).
