Virtual Extended Producer Responsibility Session

Government of Alberta information session will be municipally focused

The Government of Alberta is hosting a municipally focused information session on Extended Producer Responsibility (EPR). EPR requires the manufacturer of packaging and other products to be responsible for the end-of-life management of that product. Alberta recently enabled EPR through a [regulatory framework available online](#). More information on the new regulation and next steps is also [available](#).

To share information with municipalities, Alberta Environment and Protected Areas is hosting a virtual session on January 17, 2023 from 1:30 pm to 3:30 pm. If you have any questions about the scheduled session, please contact AEP.RecyclingRegulation@gov.ab.ca. No registration is required, instead please click the link below to join the webinar:
