RMA Assigns Statuses to Some Fall 2022 Resolutions

Immediately after resolutions are endorsed by RMA members, the RMA sends the resolutions to the relevant provincial or federal ministry or organization for an initial response. Based on the response received, the RMA assigns the resolution a status and drafts an initial reaction.

The RMA updates the [resolutions database](#) and issues bulletins with updates as responses are received. The RMA has received responses to four member resolutions passed at the 2022 Fall Convention. Given these responses, the RMA has drafted an initial reaction to the resolutions.

The government responses, statuses, and the RMA reactions can be viewed for each resolution on the [RMA Resolutions Database](#):

- 9-22F Renewable Energy Project Reclamation Requirements
- 13-22F Enhanced Wetland Replacement Program
- 14-22F Third Party Inspections for Gravel Pit Reclamation
- 19-22F Portion of Funding from Public Lands Camping Pass Directed to Municipalities

The RMA plans to release its winter 2023 Advocacy Report Card in the coming months, which will include statuses and reactions to all other fall 2022 resolutions for which a government response is received, as well as status and reaction updates to all other active resolutions.
