Register for EOEP Updated Regional Partnerships and Collaboration Course

Registration is open for the updated Regional Partnerships and Collaboration course!

With the movement to regional collaboration in recent years, EOEP has updated its Regional Partnerships and Collaboration course to meet the current needs of Alberta's municipal elected leaders. The new interactive approach to the course will teach participants about best practices in collaborative partnerships, learn how to assess readiness, work together to design a collaborative approach, and learn skills in communication, conflict management, and consensus building.

Registration is [now open](#) for an online offering of this course over three sessions held on May 29, June 5, and June 12 from 1:00 to 4:00 p.m. Participants **must** attend all three sessions for course credit.

For a full description of the course, please visit the [EOEP website](#). Any questions can be directed to the [EOEP Registrar](#).
